NewsEdge prices for AP average substantially less than AP list prices.

All customers:

- When a customer subscribes to more than one wire, the base prices of additional wires are reduced by 50%; users are priced only for one wire. For example, if a customer decides to subscribe to the Energy Alert and BusinessStream for 100 users, the price will be \$18,860 + .5(14,600) = \$26,160.

Renewals:

- If the customer renews one wire, use the table entry for the appropriate number of users. For example, if the customer currently subscribes to BusinessStream for 50 users and decides to renew for 100 users, the price will be \$22,960. If the customer stays with 50 users, the price will be \$18,760.
- If the customer currently subscribes to multiple wires and renews for the same wires, use the table entry for the appropriate number of users of one wire and add 50% of the base price for each additional wire. For example, if the customer renews BusinessStream and the HighTech Alert for 200 users, the price will be \$25,160 + .5(14,600) = \$32,460. If the customer also decides to add 50 users, the additional amount will be \$2,700.

Public Relations, Investor Relations, and Lobbying Firms:

- Add 50% of each wire's base price to the price for the appropriate number of users. For example, the price, to a PR firm, for an alert wire for 50 users is \$14,660 + .5(10,500) = \$19,910.

PJB PUBLICATIONS
GENERAL TERMS AND CONDITIONS FOR USE OF DATA

Definitions

1. For the purposes of these conditions the following expressions shall have the meanings respectively attributed to them

"PJB" means PJB Publications Limited and any of its subsidiary companies ("subsidiary" having the meaning given to that expression by Section 736 of the Companies Act 1985)

"Data" means any information (published or otherwise made available to Subscribers) in which copyright is held by PJB

"Licensed Data" (in relation to a Subscriber) means the Data contained in such one or more titles from PJB's range of publications as that Subscriber has selected to have provided or made available by PJB or by any Vendor, or from which a Vendor may provide a selection of information on request from the Subscriber

"Vendor" means any company or organisation licensed by PJB to resell or sublicense Licensed Data

"Package Deal" means an arrangement whereby for a single fee a Subscriber is allowed access to Licensed Data or is supplied with a copy of the same (or any selection of such Data made in accordance with parameters set by the Subscriber) subject to the relevant terms hereof. For the avoidance of doubt a Downloading Rights License (as defined below) is not a Package Deal

"Downloading Rights License" means an agreement between PJB or any subsidiary of PJB with a Subscriber whereby a given number of Readers within the Subscriber's Organisation are granted the right to redistribute Licensed Data in respect of which no Package Deal is for the time being in force (and, if the Subscriber has paid the requisite additional fee, are also granted the right to archive Licensed Data) subject to the relevant terms hereof

"Subscriber" means any company firm or other entity which enters into an agreement with PJB or with a Vendor to receive or have access to Licensed Data

"Subscriber's Organisation" means the Subscriber and any other company, firm or other entity which at the date any agreement with PJB or with a Vendor commences or was last renewed is the parent or subsidiary of the Subscriber or is at that date an associate of it (any two companies being associated if they are both subsidiaries of the same parent company)

"Reader" means an employee of the Subscriber's Organisation who has the opportunity to procure direct access to Licensed Data for the purposes of his employment or engagement by the Subscriber's Organisation and who has been included in the total number of Readers notified by the Subscriber on the grant or last renewal of the relevant license

"Casual User" means an employee of the Subscriber's Organisation who does not have direct access to Licensed Data but may infrequently be supplied with portions of the Licensed Data by one or more Readers

Provisions of general application

2.1 PJB holds the copyright in all its Data and consequently has the right to control its use and to impose such conditions on its use as PJB may think fit and to restrain any use of Data that is not in accordance with these terms and conditions. Permissions granted with respect to any particular Licensed Data do not extend to any other Data of PJB

2.2. The rights granted to (and the conditions imposed on) any Subscriber shall apply equally to every part of the Subscriber's Organisation. The Subscriber shall draw these terms and conditions to the attention of each Reader and shall use all reasonable endeavours to see that these terms and conditions are duly observed by them

3. The price charged to each Subscriber for any Package Deal and/or Downloading Rights License will reflect the number of hard copy subscriptions then held by the Subscriber to each title included in the Licensed Data to which that Package Deal or Downloading Rights License applies. The right is reserved to recalculate the price on any extension or renewal inter alia if the number of such hard copy subscriptions is reduced

4.1 If as a result of any amalgamation acquisition or corporate reconstruction (but not by reason of organic growth) there is a material increase as hereinafter defined in the aggregate number of Readers and Casual Users within the Subscriber's Organisation, the Subscriber shall notify PJB as soon as practicable thereafter and the parties will negotiate in good faith with a view to agree on a correspondingly proportionate increase in the fee payable under any relevant agreement between PJB and the Subscriber to which these terms and conditions apply. Such increase shall when agreed be backdated to the date of such increase and if agreement has not been reached within 60 days after the date of notification to PJB or 90 days after the date such increase occurred (whichever period expires first) either PJB or the Subscriber may terminate the relevant agreement on giving not less than 30 days' written notice to the other party.

4.2 For the purpose of condition 4.1 hereof (i) an agreement is relevant if the price payable by the Subscriber was determined in whole or part by reference to the number of Readers and/or Casual Users and (ii) an increase is material if by itself or in conjunction with any previous increase since the date on which the price was last revised in accordance with clause 4.1 of these Terms and Conditions) the aggregate number of Readers and Casual Users is increased by 5 per cent or more above the figure notified to PJB on such date as aforesaid.

Basic rights

5. Unless a Subscriber has entered into a Package Deal or has obtained a Downloading Rights License, the use of Licensed Data by each Reader within the Subscriber's Organisation is limited so that

- a) Such Data may not be reproduced except as necessary to view it in transient human-readable form or for the purpose of storage by that Reader subject to paragraph d) of this clause
- b) Such Data is for the personal use of that Reader
- c) All other reproduction or redistribution of such Data is prohibited, whether in hard copy or machine-readable form
- d) No portion of such Data may be retained in machine-readable form for more than 60 days after the date of receipt by the Reader and on the expiry of the permitted period shall be deleted

Package Deals

6. The following provisions apply to Package Deals made by a Subscriber whether with PJB ("Direct Delivery Package Deals") or with any other Vendor ("Vendor Package Deals")

7. Where there is a current Package Deal in force relating to Licensed Data then for the duration of that Deal each Reader within the Subscriber's Organisation shall be entitled with respect to that Licensed Data

- a) To make a reasonable number of copies for personal use of any part or parts of the Licensed Data, whether such copies are in electronic or hard copy format.
- b) To distribute any part or parts of the Licensed Data to other Readers (and any reasonable part or parts of that Data to Casual Users) within the Subscriber's Organisation in any format and by using electronic or other means.
- c) To incorporate any reasonable part or parts of the Licensed Data into reports or any other form of communication circulating purely within the Subscriber's Organisation.
- d) To incorporate any reasonable part or parts of the Licensed Data into reports, correspondence or other communications intended for circulation outside the Subscriber's Organisation provided that each such use incorporates a visible acknowledgement of PJB's copyright, and
- e) In respect of such one or more titles (included in the Licensed Data) for which the Subscriber has applied and paid in addition for archiving rights, to store the whole or any part or parts of those titles in machine-readable form until the end of the year or other period for which those rights are granted (or, if sooner, until the termination of the Package Deal) provided in any event that at the end of the period for which any Licensed Data may be stored that Data is to be deleted

Trial Subscription

8. Where PJB permits a potential new Subscriber to have access to any Licensed Data for a trial period (normally of 30 days) then for the duration of that trial period each Reader within the Subscriber's Organisation

- a) may make use of that Data in all or any of the ways set out in paragraphs a) to d) inclusive of clause 7 above and
- b) may store any of that Data in machine-readable form, provided in any event that on the expiration of the trial period (unless the Subscriber enters into a Package Deal commencing immediately afterwards) any stored Data is to be deleted

Downloading Rights Licenses

9.1 In this clause the expression "Nominated Vendor" means any Vendor notified to a Subscriber as having agreed that the exercise (with respect to Licensed Data obtained from that Vendor) of any of the rights set out in this clause shall, if permitted by PJB, not amount to a breach of any agreement between that Vendor and the Subscriber

9.2 Where a Subscriber obtains Licensed Data from any Nominated Vendor the terms of this clause shall prevail insofar as they permit any act in relation to Licensed Data that would otherwise be prohibited by that Vendor but with that exception a Subscriber who obtains Data from any Vendor will continue to be subject to all the terms and conditions of any agreement between the Subscriber and the Vendor (including, without limiting the generality of the foregoing, the obligation to pay all charges that the Vendor is entitled to make for the supply of Licensed Data)

9.3 Where there is a Downloading Rights License in force relating to Licensed Data then for the duration of that License

- a) Each Reader within the Subscriber's Organisation may make use of that Licensed Data in all or any of the ways set out in paragraphs a) to d) inclusive of clause 7 above and
- b) In respect of such one or more titles (included in the Licensed Data) for which the Subscriber has applied and paid in addition for archiving rights, each Reader may store any material from those titles in machine-readable form, provided in any event that on termination of the Downloading Rights License any stored Data is to be deleted

10. Any Downloading Rights License shall be valid for the Term specified in the application for it (subject to the provisions of clauses 16 and 17 herein) and on the expiry of the Term will lapse automatically unless renewed

11. In the event of a material failure by PJB to supply Licensed Data to any Vendor from whom the Subscriber normally obtains it (or to supply such Data to the Subscriber where there is a Direct Delivery Package Deal in force) then if PJB does not rectify such failure within 30 days of

receiving notice, then the Subscriber may by further notice to PJB treat any Direct Delivery Package Deal or Downloading Rights License relating to that Data as terminated and shall be entitled to repayment of a proportionate part of the price paid for the same

General restrictions on the use of Data

12. Unless expressly permitted (that is to say under the provisions of the foregoing clauses 6, 7, 8 or 9) Data may not be reproduced, distributed for profit, leased, rented, sub-licensed, charged, re-sold or otherwise dealt with or encumbered by the Subscriber (or any part of the Subscriber's Organisation or any individual to whom Data may have lawfully have been supplied) or used on behalf of or made available to any third party

13. Nothing herein or in any permission granted by PJB shall be taken to permit the indiscriminate copying of any Data (whether in hard copy or machine-readable format) or the copying in its entirety of the material comprised in any title which is included in the Licensed Works

14. Direct access to Licensed Data included in any Package Deal and/or the exercise of the rights granted under any Downloading Rights License is restricted to the overall number of Readers notified by the Subscriber. The right is reserved to charge a reasonable additional fee for any increase in the number of Readers above the figure last notified by the Subscriber

15. The use of Data as permitted by these terms and conditions is restricted to the Subscriber and the Subscriber's Organisation. Rights granted to a Subscriber are not transferable to anyone else

Breach of terms by any Subscriber

16. PJB reserves the right to terminate the supply of Licensed Data to any Subscriber in any format whether by Direct Delivery Package Deal or via any Vendor (while retaining for its own benefit all monies paid for the supply or other use of that Data) if there is a material breach of any of these terms and conditions by any person employed or engaged in any part of the Subscriber's Organisation (and which if capable of remedy is not in fact remedied to the reasonable satisfaction of PJB within 30 days of the Subscriber receiving written notice requiring the same)

17. PJB shall be entitled to terminate any Downloading Rights License or Direct Delivery Package Deal if the price (or any instalment of it) is not paid by the Subscriber within such period of credit as PJB may in its discretion have allowed

Warranties

18. PJB warrants that it is entitled to grant all such rights over Licensed Data as shall be conferred under any Direct Delivery Package Deal or Downloading Rights License

19. PJB exercises due care and skill in the preparation of all Data but makes no claim that it is free of error or fit for any particular purpose. To the fullest extent permitted by law PJB SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES (EXPRESS OR IMPLIED) INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF QUALITY OR FITNESS FOR ANY PARTICULAR PURPOSE

20. PJB shall not be liable to any Subscriber or any other person for the consequences of any decision or action taken (or which any person refrains from taking) in reliance on any Data nor shall PJB be liable for any loss of profit or special incidental or consequential damages or any similar claim even if PJB has been notified of the possibility of such loss or damages

Miscellaneous provisions

21. PJB shall have no right of intellectual property in any product that a Subscriber may develop with the assistance of any Licensed Data

22. No employee or agent of PJB has authority to vary or modify any of these terms and conditions

23. Any communication between PJB and a Subscriber or potential Subscriber (or their agents) relating to their particular requirements or terms for the supply of Data are to be treated as confidential information that shall not be disclosed outside their respective organisations.

24. All rights of PJB that are not specifically granted herein are reserved to PJB

25. Headings have been added for convenience but shall not affect the interpretation of these terms and conditions

26. These terms and conditions are to be interpreted in accordance with English law

27. These terms and conditions supersede all previous terms and conditions relating to the use of Licensed Data
